- THE BABY WAGON.
- Of all the objects on the street
 I charge to most each day
 Are little babbs, fast safesp,
 That in their engons lay.
 I love to see their pretty forms
 In lumecance of pose,
 Unmindth of the passing throng
 While sweetly they repose.
- There to see the little arm,
 So smooth, and round, and white,
 Thoughtless of all worldly harm,
 Dear little angel bright.
 Its position ilp, its discipled chin,
 Make me inward feel-
- Confound that wee, she's skinn'd my shin with her b. wagon wheel. —F. B. Conger.

The maid servant who happens to be in the room—"Oh, madans, then is it going through this street?" -"I think a bath daily would be bene-

I felt better for a while, but it wasn't long before I was as bad as ever, not I have been growing worse ever since." -A lady barber of Homer, Ill., has shut up shop to marry a wealthy farmer with whom she scraped an acquaintance, and may be expected to razor quota of little shavers to help the world along. She is said to be young, hand-some, and accomplished, and, in the words of a native of her town, "slung as slick a blade as any galoot in the burg."

-"What is your business?" asked a Harvard student of an old printer, as the two stood at the Parker House bar, waiting for a cocktail that the bartender was preparing. The printer looked the young man straight in the eye and said, with great solemnity, "I am an erector of metallic possessions of thought; or, as I am sometimes known, a journeyman printer."

Coukting.

Any further pursuit of Conkling by h enemics is cowardly and in the worst of taste. I has retired from the arena of politics, and is no simply a private citizen. During his last and ur essful contest he conducted himself through out as a man of honor, and stooped to none of th tricks of his enemies to gain a single point. Dur ing his long public career there has never been a suspicion aroused which impugned his personal in-tegrity. He walked amid corruption, and was not contaminated by it. He is defeated, but not disgraced, and, in spite of his position, his old friends still do him reverence, and his word, like that of Cacar's, stands against the world.—Carson (New)

NEW YORK, AUG. 15. Nibern.—Buring the morning
our market, while quiet, was remarkably strong, and
as the strength continued many shorts were frightened into covering. Which caused an alvance of

in the grangers, the trunk lines, and the roal shares. hi the grangers, the trunk lines, and the coal shares. By the early afternoon, the aborts being covered, an element of strength was removed, and the market lost the greater part of the advance. During the afternoon the decline was assisted by rumors that the Precident's condition was worse. The rumors, however, were denied by private advices from Washington. The money market continues easy, notwithstanding the Treasury has absorbed a considerable amount of money during the week. This absorption must show in to-morrow's bank statement, when a decrease of a million and a half to two million in eash is looked for.

New York, Aug. 12, 2:15 a. m .- It was the average impression at the Branch last night that the present uncertainties surrounding the Trunk road matters and the apparent indifference of the Vauderbilt people as to the situation might cause a continued dull brokers' market for a day or two; but there was much confidence expressed in an-

Vanderblit people as to the situation might cause a continued dull brokers' market for a day or two; but there was much confidence expressed in another sharp upward movement presently. Certain brokers who are usually shrewd and well informed, and ore now executing some of the largest orders in Lake Shore, New York Central, and Michigan Central, believe that the Vanderblit boys are buying them whenever they are weak; but the latter would rather see them decline than advance for the present. The sooner they get their load the sooner it is believed that Vanderblit will consent to some kind of new pooling arrangement. Woersholler says he is a buil on the situation, and he believes in a much higher market in September. His grain advices from points along the St. Paul road are better day by day. Sage still talks buillish, but his opinion on the market is not regarded just now as very significant. Osborne continues bearish, but his house is a buill—as much long as short. Mr. I' ecre's friends say he was still talking bearish, yesterday, and declared there was no market worth operating on. He is said to be selling Lake Shore and the Southwestern stocks more than anything else. The only privilege he has recently sold was a spread on 5,000 Jersey Central last week. There is a strong buil party in Deinware, Lackawanna and Western, which is being worked by Kennedy Hutchinson, and it is claimed a fair short interest has been entrapped. Higher prices for coal are predicted again in September. The buying of Western Union is also claimed to be excellent Eckert, it is said, is sure to be made president by Gould at the September meeting. One of the new opposition lines has offered to sell out already. General Grant received a message at the Elheron last night from Dr. Bits predicted again in September. 1.30 p. m.—Chicago telegrams report corn up about 2 cents per bushel to-day on the continued excessively dry and hot weather. A Washington special telegram says the Agricultural Bureau report up to August I will be issued next week, and it will show the loss on wheat as compared with last year to be 60 or 70 per cent. greater than it appeared to be from the July statement. The corn crop will make a better showing than in July, and cotton and tobacco will be fair. It is estimated that the forthcoming report, which will be the most important one for the year, will indicate a shortner of 125,099,000 bushels of wheat as compared with last year. The officials say the main loss is in wheat, and there is yet time for corn to come out all right.

I respectfully call your attention to TURCK'S DIA-MOND INDESTRUCTIBLE DRAFTING INK. This Ink has the following advantages over all other draft-ing links heretofore used:

1. It produces a clean, even line, and does not "wash off," thus enabling the draughtsman to color his me-chanical drawings without danger of the lines "run-ning." aing."

2. It being ready for immediate use, it obviates the
cellous work of "rubbing up" ink, thus saving much tesilous work of "rubbing up" ink, thus saving much time and taking post of indestructible material of a dense, black color, which makes a durable drawing and a perfect photographic copy.

4. The link comishing mosciol or alkali, preventisany danger of destruction to drawing niemals or paper.

I refer you to the U.S. Friend office, General Land Office, Interior Department, Archifect's Office, Treasury Department, and all other Departments of the U.S. Government. Very respectfully.
